Gramercy Park is the name of a gated Victorian private park and the surrounding neighbourhood. The park is the only completely private grounds in all of Manhattan. It is so exclusive that there are only 383 keys to the park that only the surrounding residents, that pay an annual maintenance fee, may use. The pristine neighbourhood has been recognized as a historic district since the early 1960s.

Originally a neighbourhood of musicians, artists, students and hippies, the East Village was a centre of counterculture, the beatnik generation and considered the birthplace of punk rock in North America. The modern day East Village is a gentrified neighbourhood with hip lounges, restaurants and boutique shops but still pays homage to its vibrant roots.
